

Newton Township is a collection site for single stream recycling. The site is located on the grounds of the Administration Building as a service to the community in partnership with the Trumbull-Geauga Solid Waste Management District.

All recyclables are now deposited into the bins together. No more separating! Recyclable items include glass, paper, cardboard, aluminum and plastic. Please deposit your recyclables in the bins as provided. All cardboard boxes must be broken down before depositing in the recycle bins, Items should not be left on the ground and lids should be closed on the bins as you leave.

To encourage continued collections at this facility, please obey all rules and signage at the Recycle Center. Acceptable recyclables may be dropped in the bins anytime during daylight hours. The facility accepts NO TIRES of any other items not listed on the bins except during the Spring Clean-up and Tire Collection held in May. The area is monitored 24 hours a day. Anyone caught disposing of items not permitted at the site is subject to be prosecuted.

Let's all work together to keep Newton Township clean, green, and beautiful!
